Directions:

- **Place your call 5 minutes before the scheduled time to ensure that you will be put through to the phone conference.**
- Dial the call in number: **877-394-0659**
- At the prompt, enter the six digit passcode: **33912** and press the # key
- You'll be asked if you are the Chairperson (you are NOT) and will be prompted to put in the Chairperson's 4-digit access code (you do not do this). You do not need to do anything here.
- You may be placed on hold until the KDE facilitators join you.
- You will hear an announcement that you are in the phone meeting.
- Please keep your speakerphone on mute, and un-mute only when you are asking or responding to questions.

Your cooperation will ensure the success of the phone conference.

Please note that each session can only accommodate a maximum of 50 phone lines. In order to accommodate as many districts as possible, we encourage you as a district team to use one phone line and a speakerphone for your Title III Coordinators and DACs. In the event that you have to use multiple phone lines, please note that you have to register separately for each phone line you intend to use. You will receive an email confirming that you are signed up for the session you chose. We will also let you know if the session you signed up for is filled, and you can choose from the other two sessions.

Thank you.
